SEED CATALOG

SEASON OF 1932

HERMANN GLIEME, Inc.

1824 Foster Avenue

CHICAGO, U. S. A.

TO OUR CUSTOMERS

We take pleasure in presenting to our customers this new catalog, covering.

Annual Flower Seeds	page 1-39
Perennial Flower Seeds	" 41-56
Grass Seeds	" 39-
Ornamental Grass Seeds	" 40-
Evergreen Seeds	" 57-
Vegetable Seeds	" 58-59
Greenhouse Plants	" 60-62
Knives and Shears	" 63-64

Aralia, Acer, Azalea and Rhododendron seeds (see back cover)

All the seeds we offer in this price-list have been tested by an experienced grower in our own greenhouse, therefore germination and purity can be depended upon, thus assuring our customers shipments of seeds which will bring results.

A number of seeds, which retains its germinating ability for a short period only, will be delivered immediately upon arrival of the new crop. We wish to mention a few of these varieties, such as **Primula, Obconica, Azalea, Acer, Rhododendron** etc. In order to furnish the seed on time, we wish to request our customers to place orders as early as possible.

On pages 58-60 is a collection of **Greenhouse Plants**, which are grown by an experienced grower in our own greenhouse. During the season we shall be in a position to supply the trade with any quantity of young, strong, clean and healthy stock. While we are confident prices quoted are very reasonable, we shall be pleased to have the opportunity of meeting any reasonable competition of houses of repute. All plants offered are guaranteed true to name.

We again welcome the opportunity to thank our patrons for their generous support in the past and will do our utmost to justify their continuance. We solicit your further orders with the assurance that you will receive merchandise of the highest quality.

HERMANN GLIEME, INC.

NOVELTIES

ODONTOSPERMUM SERICEUM SCH. BIP.

A low, copiously blooming decorative flower-bush of the Canary Islands, covered with golden-yellow blossoms 2 to 3 inches wide and with peculiar light silver-green and silk-like foliage. The bush is cultivated from seeds in the greenhouse. The seedlings are transplanted into flats and later into small pots with leaf mold. Eight months after sowing the seed the plants begin to bloom. The beautiful, glowing blossoms, which appear on the ends of the young shoots, have very short stems and stay on the plant a long time. Close underneath the blossom appear two or more little branches, which begin to bloom before the upper blossom has faded. This is the reason for the richness of blooms on the bush.

Plants should be handled in the same fashion like Hydrangeas and Pelargoniums.

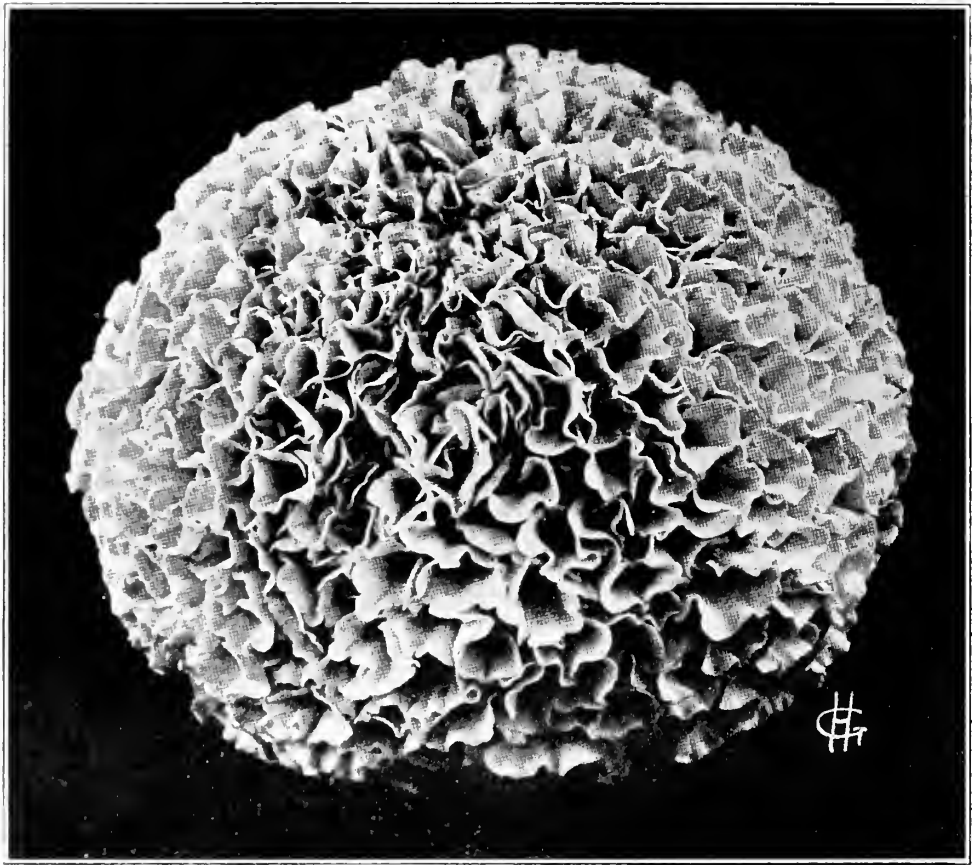

100 seeds \$1.00 — 1000 seeds \$8.00

ASTER—GIANT CALIFORNIA SUNSHINE MIXED

The color in these new Asters is startlingly beautiful. A dual-tone effect is obtained through the contrasting tints of the disc-like center and the outer or guard petals. Gracefulness of form is a distinguishing characteristic. The full centers of tubular, bifurcate petals surround the center, creating an airy, lace-like effect, which is altogether charming.

The best florists' Aster and a good garden variety. We feel confident this glorious new strain will be acclaimed a distinct acquisition to modern floriculture.

$\frac{1}{8}$ oz. \$1.25 — $\frac{1}{4}$ oz. \$2.50 — 1 oz \$8.00

MARIGOLD AFRICAN ORANGE ALDDOUBLE

This new strain comes hundred per cent double, it has proved very successful the last season and we again offer it as a novelty of special merit for this season's distribution.

$\frac{1}{4}$ oz. \$1.00 — $\frac{1}{2}$ oz. \$2.00 — 1 oz. \$3.50

MARIGOLD AFRICAN LEMON ALDDOUBLE

Lemon Alldouble has come 95% true and we are introducing it confident that it will, like Orange Alldouble, live up to our expectations.

$\frac{1}{4}$ oz. \$1.00 — $\frac{1}{2}$ oz. \$2.00 — 1 oz. 3.50

SWEET SCENTED DOUBLE NASTURTIUM "GOLDEN GLEAM"

It is hardy and free-growing as the common Tom Thumb Nasturtium. The color is a most pleasing yellow and delightfully sweet scented, Very useful for the home gardener and as a cut flower for the retail grower.

$\frac{1}{4}$ oz. \$.50 — $\frac{1}{2}$ oz. \$1.00 — 1 oz. \$2.00

Dianthus Sweet Wivelsfield

SWEET WIVELSFIELD

This new Perpetual Flowering Hardy Annual has proved phenomenally successful—and—we again offer it as a novelty of special merit for this season's distribution.

Very good for borders, as a cutflower, and especially adapted for rock gardens.

$\frac{1}{16}$ oz. \$.75

$\frac{1}{8}$ oz. \$1.50

$\frac{1}{4}$ oz. \$2.75

1 oz. \$9.00

BALCONY PETUNIA

"Star of California"

Velvety violet with touch of crimson, starred with five white blotches.

$\frac{3}{32}$ oz. \$.75

$\frac{1}{8}$ oz. \$1.50

$\frac{1}{4}$ oz. \$2.50

ANTIRRHINUM

MAXIMUM

"Salmon Rose"

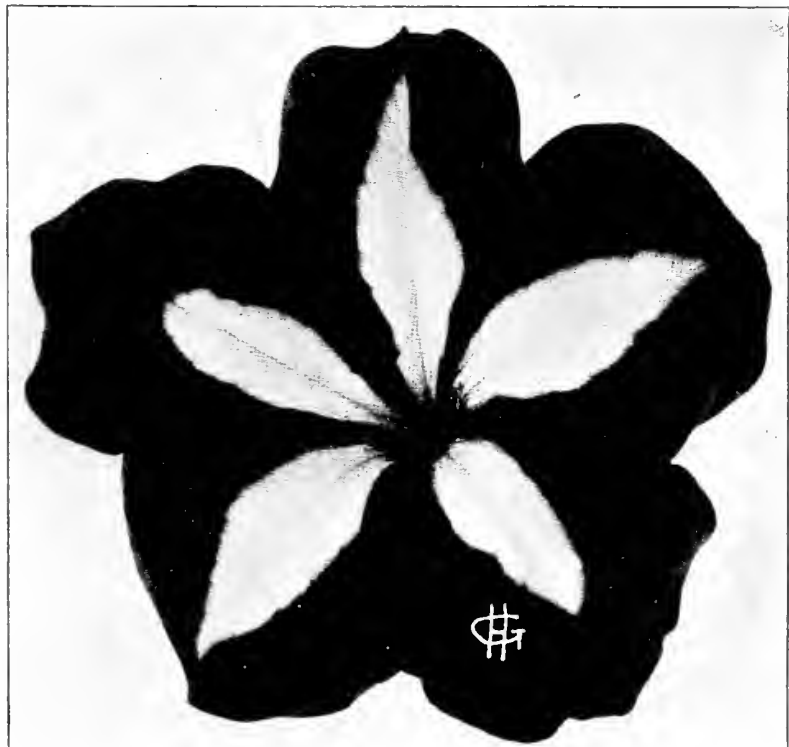

A most beautiful shade of salmon combined with the Begonia rose color which made Antirrhinum Maximum The Rose so popular. The plants have a good vigorous habit and the flowers are immense.

$\frac{1}{16}$ oz. \$1.25

$\frac{1}{8}$ oz. \$2.50

$\frac{1}{4}$ oz. \$4.50

1 oz. \$15.00

PETUNIA HYBRIDA PENDULA "Star of California"

SCABIOSA "LOVELINESS"

Scabiosa "Loveliness" was introduced to the trade last season, it has proved very successful. Flowers, which are carried on long, strong stems, are of a pretty **Salmon Rose** color.

$\frac{1}{4}$ oz. \$1.00

$\frac{1}{2}$ oz. \$2.00

1 oz. \$3.50

CINERARIA

			$\frac{1}{12}$ 8oz.	$\frac{1}{64}$ 4oz.	$\frac{1}{32}$ 2oz.
Multiflora Nana (dwarf)					
Rosea	Lilac	Azurea			
Coerulea	Kermesina	Rose Kermesina			
Reddish Dark Blue	Mixture		\$1.50	\$3.00	\$6.00
Multiflora Nana "Kenners Ideal"					
The plants of this new class are very dwarf and compact. Small leaves and a very large flower-head. Highly recommendable.					
Blue	Red	Rose	Violet	2.00	4.00
Finest Mixed				2.00	4.00

CINERARIA HYBRIDA GRANDIFLORA MAXIMA

This plant attains a medium height. The large flowers in ten to twelve-inch umbels extend well over the foliage. The leaves are larger than those of Multiflora Nana, and for this reason Maxima is a more decorative plant.

It finds a very ready market for Mother's Day sales.

Rosea	Brilliant Rose	Kermesina
Light Blue	Delicate Rose	
Reddish Dark Blue	Mixture

LARKSPUR (continued)

Exquisite Pink Improved

A new strain true Exquisite Pink in color with a wonderful improved new form. An upright habit similar to our Perennial Delphinium and best of all, this new improved strain comes practically 100% true. The color is a beautiful **Soft Pink** shaded **Salmon**.

$\frac{1}{4}$ oz. \$.50 1 oz. \$1.75 4 oz. \$6.00

Exquisite Rose

A beautiful shade of rosepink, several tones deeper than **Exquisite Pink Improved** but with the same new improved Delphinium form and coming quite true.

$\frac{1}{4}$ oz. \$.50 1 oz. \$1.75 4 oz. \$6.00

La France

Larkspur La France is very floriferous, the large, well-formed, double flowers being well placed on the long stems to set off its attractions. It is vigorous growing, and is more resistant to mildew than the older Stock Flowered varieties. The color is a pleasing salmon-pink, a shade closely resembling the popular Antirrhinum Jennie Schneider.

$\frac{1}{4}$ oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

Los Angeles

Los Angeles is of the same growing habit as La France, but with a richer color-something between La France and Rosy Scarlet. The foliage of Los Angeles is a much darker green, making the large, double flowers stand out more prominently.

$\frac{1}{4}$ oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

WHITE SPIRE

A new dazzling pure white double Larkspur with the improved upright delphinium-like habit of **Exquisite Pink Improved**.

$\frac{1}{4}$ oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

Leucophaea candicans

LEUCOPHAE CANDICANS

A new species from the Canary Islands. Silvery-white, heart-shaped foliage; pretty bedding and pot-plant.

100 seeds \$1.00 500 seeds \$4.00

LEUCOPHAE MACROSTACHYS

Large leaves, which are olivegreen on top and silvery-white below. Stems also of a silvery white color.

100 seeds \$1.25 500 seeds \$5.00

LINARIA

Maroccana Hybrida Excelsior Mixed:

This is a hardy annual with small dainty flowers resembling miniature Antirrhinums and in addition each flower has a long Columbine-like spur. It makes a pretty cut-flower and the colors range through crimson and gold, pink, mauve, dark blue, chamois and rose, with many lighter art shades. It blooms in about eight weeks from seed?

PANSY

ROGGLI GIANTS (Swiss Pansy)

A wonderful class of Pansies, which we highly recommend to our customers. The imposing 3 or 5 blotched flowers, which on long vigorous stalks surmount the strikingly large and healthy looking foliage in the most graceful manner, are of enormous size, three inches and over in diameter, perfectly round in form with overlapping petals.

The beauty, brilliancy and riches of colors being the most striking very rare and entirely new tones—never before seen in any Pansy Mixture.

1/8 oz. \$1.50	1/4 oz. \$3.00	1 oz. \$10.00	4 oz. \$37.50
----------------	----------------	---------------	---------------

GLOWING OF THE ALPS (Roggli)

Red shades, enormous sized flowers, carried on long strong stems.

1/8 oz. \$2.50	1/4 oz. \$4.00	1 oz. \$15.00
----------------	----------------	---------------

LAKE OF THUN (Roggli)

Very large flowers of intense blue color. Ideal for cemetery planting.

1/8 oz. \$2.00	1/4 oz. \$3.50	1 oz. \$12.00
----------------	----------------	---------------

GLIEME'S WORLD GIANT MIXTURE

The plants of this new strain are distinguish themselves by their robust growth, and form compact bushes of round shape, with strikingly, healthy looking foliage. The imposing 5-blotched flowers are carried on long, vigorous stalks and are of enormous size. The most striking qualities of this strain, however, are the wonderful colors and color combinations,—very rare and entirely new—such as brown, red and salmon.

1/8 oz. \$2.50	1/4 oz. \$4.00	1 oz. \$14.00	4 oz. \$50.00
----------------	----------------	---------------	---------------

MASTERPIECE (Germania)

PANSY EXPOSITION PHANTASY HIMALAYA (Ice Pansy)

(Winterblooming Giant Pansy)

The main advantage of these new Pansies over all hitherto existing ones is the extreme earliness of flowering, in connection with an unusual hardiness. In Central Germany they begin to flower in February already, even beneath the snow, are in full bloom the first part of March, at a period, where all other sorts of Pansies begin to bud only, and continue to flower until the summer. The flowers are very large, well formed and fragrant. This class of Pansies is deserving of the strongest recommendation for bedding and cutting.

PETUNIA GRANDIFLORA NANA

(Large Flowering Dwarf Petunias)

The plants of this strain will attain a height of only 8-9 inches, branch out considerable but will grow in close formation making it unnecessary to tie them. The pretty round bushes carry their flowers well above the foliage. The flowers are large in a great variety of colors. These plants are suited especially for pot plant purposes or can be used in flower beds.

	1/128oz.	1/64oz.	1/32oz.
Copper Red, a very attractive new shade, giant flowers	\$2.00	\$4.00	\$8.00
Finest Mixed, contains the most desirable colors, extra large ruffled flowers	1.50	3.00	6.00

PETUNIA HYBRIDA GRANDIFLORA SUPERBISSIMA NANA

Splendid mixture of new compact growing superbissima Petunias. The height of this strain is only 1/2 or 2/3 of that of the old class. The flowers are very large but substantial, owing to their rich undulation which renders them loose and attractive. The display of colors is an extraordinarily rich one showing all shades, some with deep dark throats as well as with the most lovely veining.

1/128 oz. \$2.00

1/64 oz. \$4.00

1/32 oz. \$8.00

1/16 oz. \$15.00

Pyrethrum Ptar micaeflorum

PYRETHRUM

PTARMICAEFLORUM

A wonderful new species from the high mountains of the Canary Islands. Foliage is silvery-white and carried on long stems. Useful as pot—bedding—and border plant. Will grow in any soil and best on places where the plants have always the full benefit of the sun. In the late fall cut the stems back and cover with peat, pine-needles or leaves, or winter the plants under glass. They will grow again early next spring. Highly recommendable for pot-plant and cut-flower growers.

VERBENA MAMMOTH "GOLDEN QUEEN"

The flowers of this Novelty are of medium size and borne on a vigorous vine that is of an ever-bearing nature. It is one of the earliest of flowers and continues to develop throughout the growing season, making it a very valuable plant for bedding purposes where a good yellow is required. It is the deepest yellow on the market.

1/8 oz. \$.50 1/4 oz. \$1.00 1 oz. \$3.75

VERBENA GRANDIFLORA "LAVENDER GLORY"

A Novelty what we consider the most glorious color in Verbenas—a true Lavender with a medium sized creamy white eye which accentuates the lovely Lavender tone. The color runs quite even, and the individual florets will cover a fifty cent piece. It is also distinctly and sweetly fragrant.

1/8 oz. \$1.00 1/4 oz. \$2.00 1/4 oz. \$4.00 1 oz. \$15.00

VERBENA HYBRIDA COMPACTA (DWARF) "FIREBALL"

A new dwarf compact Verbena about six inches high literally covered with bright scarlet flowers, excellent for borders, beds, or pot plants and comes absolutely true from seed.

WALLFLOWER "EARLY WONDER"

Planted in January or February, these plants will bloom in June, planted in March they will bloom in July, etc. Thus, it will be seen that it is possible to have blooming plants during the entire year. It is to the best advantage to sow in June, July, August and September in order to have blooming plants outside in the fall or in the cool houses in winter or spring. Early Wonder will grow to a height of 30 inches. It will branch out, these branches also being laden with beautiful flowers which are well suited for cut flower purposes during the cool season.

PERENNIAL--FLOWER SEEDS

Early in May is the ideal time to begin to sow seeds of rockery plants and indeed all the hardy herbaceous sorts. Sow the seeds as evenly as possible, choosing, if possible, a day when there is not much wind. If the soil is not very fine it may be lightly tamped before the seed is sown: The covering of these seeds is a most important step; it is much easier to fail through giving too much covering than too little. Very fine seeds such as Campanulas need very little covering at all. Larger sorts such as Iberis, cover just out of sight, or with about one-eighth of an inch very fine soil. There are some sorts of Perennial seed, which will not germinate until about 6 months or even the following spring (for instance Helleborus, Paeonia, Phlox, Trollius, etc.)

We believe it is a good plan to sow the seed as soon as it arrives, even if this is midwinter. The action of the frost on many species seems to help germinate.

ASTILBE ARENDSI HYBRIDA

Showy plants of very vigorous growth, producing many-branched, feathery heads of flowers in June and July. They will thrive in any good rich soil if given plenty of water during the growing season. Very useful as pot plants.

Emden. Immense trusses of large flowers of a pretty lilac-rose color. Early flowering. 20 inches.

Frieda Klapp. Of upright growth, with pretty long spikes of dark carmine-purple color. Late flowering. 32 ins.

Gloria. A recent introduction that is conspicuously beautiful with its dense, feathery plumes of brilliant dark pink, shaded lilac. Dwarf. Very useful for bedding, and as a pot-plant.

Gloria Purpurea. Deeper color as Gloria.

Granat. Dark crimson flowers in strong divided spikes. One of the finest Astilbes.

Gunther. Long-feathery pyramidal spikes of glowing light pure rose color. Large leaves on dark red, hairy stems. Very free flowering.

Hyacinth. Dense flower spikes of delightful rose color.

Kriemhilde. Magnificent salmon-rose color and pretty feathery spikes. Foliage green on red stems.

"Hollyhock" Delphinium

Queen Mauve, an exceptionally lovely, eyeless mauve with a very graceful spike, 3 ft. long, wide at the base and tapering to the top, with but few side-shoots. The color is an exquisite of pale hortense violet shaded with Salvia blue.

Sealandia, the broad spikes tapering towards the top are sheathed with parma-violet flowers, tinted sky-blue. In the center of each petal is a small dark eye. A valuable late-flowering variety.

Sunshine, soft pale mauve shaded Forget-me-not blue.

Wales, in size it is colossal. Approaching 5 ft. in length, from the base to the tip, the spike tapers to a point from a width of nearly 9 inches. Royal purple self, with small white center.

Welsh Boy, very dark gentian blue, line spike and habit.

Seed of Bees

"HOLLYHOCK" DELPHINIUMS

A Distinctive Race with Spikes like Cathedral Spires.

Bees' "Hollyhock" Delphiniums have been exhibited at all the large shows IN OPEN COMPETITION and have never been beaten.

The chief distinguishing features of the "Hollyhock" Delphiniums are: 1/ the extraordinary length and the tapering and spire-like shape, of the spikes; 2) the statuesque beauty of the plants as a whole; 3) the indescribably rich and varied tints; 4) the very remarkable extension of the flowering period—many varieties bloom well into August; 5) the unmistakable Hollyhock-like stature and stateliness.

Black-Eyed Susan, hugh massive spikes of pale blue set off with a very large black 'bee,' hence its name.

Cambria, spikes long and very full large semi-double flowers of glorious helio, splashed Venetian blue.

Coquette, tapering spiral spikes, 4 ft. long, amethyst-violet flowers, delicately shaded blue and set off with golden-brown center.

Happy Thought, Flowers enormous, outer petals small-blue on groundwork of pansy-violet, shaded rosy-amethyst. Each perfect bloom is set off with a gold and nigger-brown "bee" in center. A superb late flowering sort.

Ideal, manganese violet shading to cornflower-blue in the center of the flower, dark bronze bee-like center.

Jenny Jones, a statuesque beauty, blooms of pansy-violet with vivid flashes of gentian blue. Spikes of great height.

Purple Splendour, lovely cornflower-blue with crinkly inner petals, shaded amethyst.

ORIGINAL S. KUNDE & SOHN

DRESDEN, GERMANY

Florist Knives

Nursery Knives

and Shears

Kunde Knives and Shears are hand forged from the finest steel and are guaranteed as near PERFECT as tools can be made.

The Knives are known the world over for the wonderful edge they hold—due to the hardness of the steel and tempering, the correct bevel, ebonite or full shaped wood handles, large brass rivets and extra heavy brass linings.

In Shears Kunde originated the double cut principle; the cut coming from both sides is easier and does not require finishing with a knife for proper healing. The large bolt with security plate and the method of closure which does not allow pinching of the hand, are also distinctive features.

You will find these knives and shears to be most satisfactory not only for the way they do their work, but for the way they hold their cutting edges and their long life in continued service.

SHARPENING OF KNIVES

We recommend a Belgian Oil Stone. Whet circularly towards the edge with the blade flat and maintaining a pressure on the edge without lifting the back. Continue repeatedly on both sides until particles of steel appear on the edge. Remove these by drawing diagonally across the stone very highly, lifting a little the back of the blade.

BUDDING KNIVES

No. 351. For trees and roses, 8 cm., \$1.50 ea.

No. 31A. For trees and roses, 10cm., Strong brass lined Ebonite handle. \$2.00 ea.

No. 41H. A finely polished budding knife of buffalo horn and brass lining, 10½ cm., \$2.50 ea.

No. 22H. Of buffalo horn and brass lining 10½ cm., \$2.50 ea.

No. 23H. Same material, 10½ cm., \$2.50 ea.

No. 131P. For budding and pruning, 10½ cm., \$3.00 ea.

No. 123M. 10½ cm., \$3.00 ea.

GRAFTING KNIVES

No. 21A. For camellias, azaleas, etc. Ebonite handle. 10 cm., \$2.00.; 10½ cm., \$2.25 ea.

No. 22A. Blade more pointed. 10½ cm., \$2.00 ea.

No. 23A. For vine, rose and tree grafting. 10 cm., \$2.00 ea.

No. 24C. Curvated extra strong handle, 10½ cm., \$2.25 ea.

No. 66. Pen Knife with stage handle and steel bolster. Very strong, 11cm., \$3.00 ea.

PRUNING KNIVES

No. 1C. Curvated handle and wider blade 11cm., \$2.25 ea.

No. 2E. Wood handle, easily fitting the hand or. Strong brass lining and large rivets. 12 cm., \$2.75 ea.

No. 1N. Strong brass lining, wood handle. Covered with brass on end. 12 cm., \$3.75 ea.

No. 2123R. For budding and pruning. 10 cm., \$3.00 ea.

No. 1A. Straight flat ebonite handle, thin, blade. 10½ cm., \$2.25 ea.

No. 2G. Straight handshaped handle, narrow blade. For dividing plants, tubers, etc. 11½ cm., \$2.75 ea.

No. 2H. Stag handle, iron, lining and steel bolsters 10½ cm., \$4.50 ea.

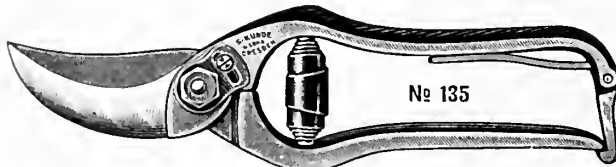

No. 411R. Ebonit handle and brass lining. For budding and pruning. 10 cm., \$3.00 ea.

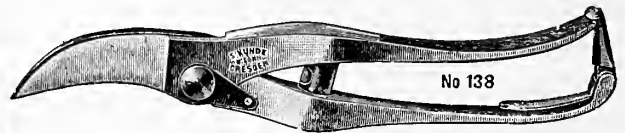

No. 3000. A heavy multi-bladed knife. Ebonite covering. 10½ cm., \$4.00 ea.

NORMAL DOUBLE CUT PRUNING SHEARS

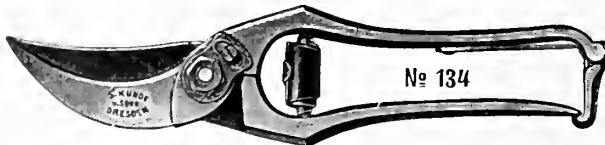

No. 135. Model 1879. Powerful double-edged Pruning Shear for trees and roses. Brass security plate for nut, both edges forged of best crucible steel. 20 cm., \$6.00 ea.

No. 138. Slender points and heavy frame, with draw-cut, obtained by placing bolt off center. Rubber covered handles. 20 cm., \$7.50 ea.

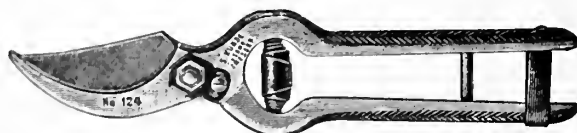

SINGLE EDGED PRUNING SHEARS

No. 134. Model 1879. A strong moderately priced shear. Brass security plate for nut, both edges forged of best crucible steel. 20 cm., \$5.25 ea.

No. 305. Heavy pressed steel and tempered blade. Hollow, comfortable grips. 22 cm., \$2.00 ea.

No. 124. Security plate for nut and leather closure. For general use. 20 cm., \$2.50 ea.

No. 126. Heavy frame with wooden coverings. Excellent for winter work. 20 cm., \$2.75 ea.

Prices include free delivery to you. 5% discount allowed on orders for 3 knives or shears and more.

Orders for seeds listed below must reach our office not later than March 15th. Delivery will be made during April, May and June, immediately upon arrival of the new crop.

ARALIA

	1000 seeds	5000 seeds	10000 seeds
Sieboldi	\$2.00	\$8.00	\$14.00
Moseri , a decided improvement on the A. Sieboldi.	2.25	9.50	17.50

ACER
